1.0 GENERAL INFORMATION

1.1 PURPOSE AND BACKGROUND OF REQUEST FOR PROPOSAL (RFP)

Pharmaceutical drug shortages are not new, and they occur due to manufacturing and quality problems, delays, and discontinuations. However, these shortages are occurring more frequently and lasting longer. The number of shortages is now hitting a critical point for healthcare practitioners and pharmacists who are unable to provide the recommended medication or treatment to give patients necessary care. For more background details, please view the Governor of South Dakota's Executive Order 2023-07 and the corresponding press release with a formal report documenting this critical issue.

The South Dakota Department of Health (SDDOH) is currently analyzing the state's medication shortage and is seeking a partner to complete an assessment of the vulnerability to the hazard of medication shortages in South Dakota and recommend best management practices to mitigate this risk.

The ideal assessment partner would have specific subject matter expertise in pharmaceutical supply chain, medication shortage history, and assessment of population health and other epidemiologic data.

1.2 ISSUING OFFICE AND RFP REFERENCE NUMBER

The SDDOH is the issuing office for this document and all subsequent addenda relating to it, on behalf of the State of South Dakota, Department of Health. The reference number for the transaction is RFP #24-0901005-002. This number must be referred to on all proposals, correspondence, and documentation relating to the RFP.
